NO ACQUISITION COST - Never pay full price again.

NO INSURANCE - The cost of insuring your boat can range from \$450-\$2500/year

NO MAINTENANCE FEES - There's nothing routine about routine maintenance on a boat. Maintenance can reach almost \$2,500 a year. A huge expense considering how often you use a boat.

NO SERVICE FEES - No storage or slip fees.

NO DEPRECIATION - This one hurts the most. Before your new toy even hits the water you have lost almost 20% of it's value. And don't forget about the 10% it will cost to have someone sell your toy.
